

Pray JAMES 5:16 FOR ONE ANOTHER

December 1st, 2024

Prayers for Craig Caulk

On November 23rd, while working from a ladder, the ladder collapsed, causing Craig to fall and sustain a head injury. He was diagnosed with a concussion and a small brain bleed.

On November 27th, Craig had a follow-up CT scan to monitor his condition. We are praying for good results, that the brain bleed heals completely, and for a swift and full recovery.

Please join us in praying for peace, healing, and strength for Craig and his loved ones during this time.
